

Dear Customers, Business Partners and Well wishers

We have closed the First Quarter in FY16-17 booking more than 50% of our Booking for the Entire FY15-16. Our Team is Fully charged to exceed customer expectations on all the project. We will soon be expanding our Manufacturing facilities, adding around 100,000 sq ft of Space in our Waluj Factory. We Also plan to build a dedicated facility for R&D. The envisioned Tech Center will house labs and prototype building facility for our expanding team of Creative and Innovative Engineers.

I am also glad to inform you that Grind Master was conferred the Title “India’s Small Giants” by India SME Forum (one of the largest organization for SME in India). The title was presented in a program in Mumbai on 24<sup>th</sup> June 2016 by Shri Kalraj Mishra, Hon'ble Union Cabinet Minister of MSME in the presence of Shri. Prahlad Kakar and Shri. Vinod Kumar from India SME Forum. The felicitation was followed by launch of Coffee Table book that presents the 40 select companies.

To continue the spirit of Entrepreneurship within Grind Master Group we have initiated an Innovation Cell that promotes concepts, ideas and even failures !!!

Director  
**MILIND KELKAR**  
Managing Director

This month I am also glad to introduce our readers to our capabilities in grinding and finishing advanced materials such as Titanium and Nickel-Cobalt and other hard alloys. This expertise is especially relevant for the growing Aerospace and Defense Manufacturing industry in India. Grind Master looks forward to taking on engineering challenges for MAKE IN INDIA and extends support in R&D, Process Development and Finishing Services for such advancements.

Looking forward to your continual support, suggestions, advice and assuring the best of our products and services.

Best Regards  
Mr. Sameer Kelkar  
CEO - Grind Master

# Grinding And Finishing Advanced Materials

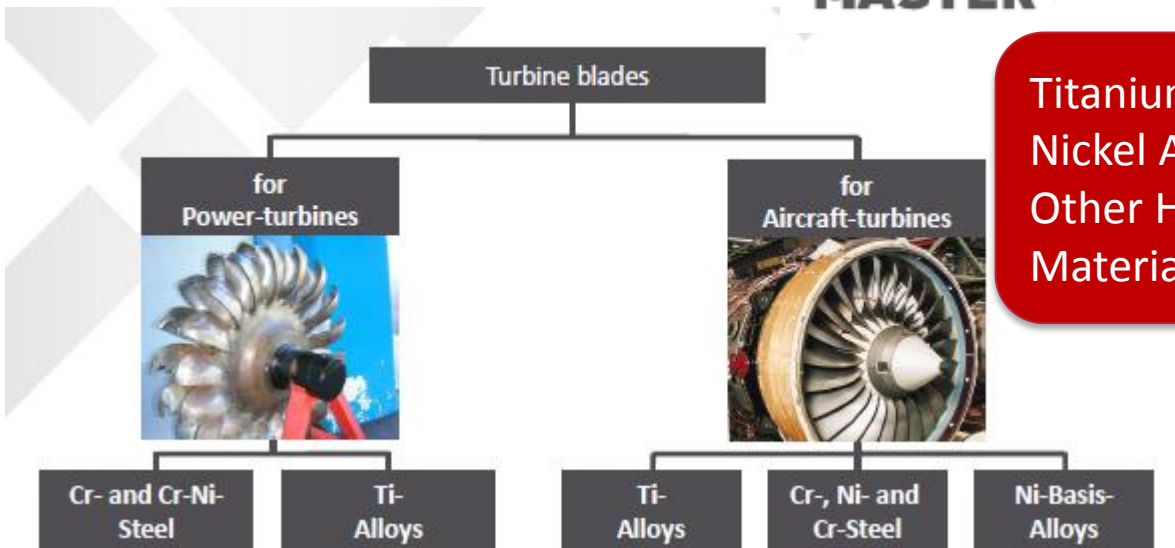

We know what it takes to Grind and Finish most Advanced Materials. Together with Collaborators VSM of Germany and Timesavers of Holland, Grind Master can offer state of the art technology and experience in grinding and finishing advanced materials.

Experience of Processing Tubes, Sheets, Turbine Blades and many more parts from Advanced Materials

## Case Study - Turbine Blades

Titanium and Nickel Alloys  
Other Hard Materials

**Ceramic Abrasives for Powerful Removal of airfoil surface defects, high welding seams & soldering skins.**

Grinding Time (t) →

➤ High Level of Stock Removal ➤ Cool Grinding

**Compact Grain Abrasives for Surface Finishing Semi Profiled & Flat Parts**

Grinding Time (t) →

➤ continuous self-sharpening ➤ Consistent Surface Finish

# Blood Donation Drive - Saving Lives

Grind Master CSR committee has been organizing Blood Donation Drives for over 10 years now, in association with Bhalerao Blood Bank, with active participation from the Grind Master team. Over the years more than 15 such drives have been organized, with more than 700 donations.

The drive organized in June received overwhelming response with 63 donations, capable of saving 189 Lives.

This spirit to contribute to society with active CSR programs will continue in the coming months with initiatives in Afforestation and Education under way.

## Majhi City Taka tak News

Grind Master supported City wide Solid Waste Management Campaign Majhi City Taka tak has completed work in 36 wards.

The Results are very encouraging :

### Composting Sites

- 15 Individual Ward level : Pit
- 4 Cluster of 2 Wards : Pit
- 4 Cluster of 2: Window

### Shift from Picking up dumping points to door-to-door collection

- 13 Large Vehicles Removed = min. 26 trips per day
- 30 rickshaws for door-to-door collection of segregated waste added

### Dry Waste Sheds

- 1 Shed

**Dumping Points Removed: 250**

The next phase of deployment will take the Concepts of Segregation at Source and Decentralized Waste Treatment to All the City Wards. The campaign is run in cooperation between CII, AMC, CRT (Carpe) and has sponsors such as Bajaj and others.
